Jim VanderRoest

Jim is an attorney in private practice in Kalamazoo. He has specialized in business law and estate planning since 1981. He started coin collecting at the age of nine and still has the coin he bought then. He collects a wide variety of items, which may be a way of saying he can't make up his mind about specializing!

Jim sees himself as primarily a collector and believes MSNS should operate in an efficient and business-like manner for the benefit of the hobby and our members, including dealers. Without honest dealers able to make a fair profit, there would be no hobby! He is a show assistant for a long-time dealer and has for many years identified foreign items for Kalamazoo dealers.

He brings decades of experience as a member and leader of non-profit boards and organizations such as the Boy Scouts of America, the Kalamazoo Public Library, his church, and others. He is the President and a life member of the Kalamazoo Numismatic Society. He would greatly appreciate your support.
